Help us save dogs like Dolly!

Dolly is an adorable girl who is only 5 years old and has a very, very sad story to tell. She was dearly loved by an elderly gentleman who had to be hospitalized due to a terminal illness. To make her situation worse, Dolly was diabetic and her owner did not realize it and therefore she was never treated and the lack of treatment caused her to lose her eye sight. Thanks to the intervention of the caretaker of Dolly's owner, Dolly was turned in to CSRNE and brought to the veterinarian where she started to receive the care she needed for her diabetes which includes a special diet and insulin injections given twice daily. Dolly is already blind due to diabetic cataracts but once she is regulated, those cataracts can be removed and her sight can be restored! The estimated cost of this surgery is \$2600. **Once the cataracts are removed, they can never return and Dolly will see again!**
